

Motorola Introduces Next Generation of 3G Handsets

October 19 2005

Motorola, Inc. today unveiled its next generation of 3G/UMTS mobile handsets - the Motorola RAZR V3x, the E770v and the E1070, which are launching first with operators in Europe and Asia.

The introduction of the RAZR V3x unites the power of 3G/UMTS technology with the world acclaimed RAZR clamshell design. The ultra-slim RAZR V3x is available in three colors: liquorice black exclusively through 3, ash silver exclusively through Vodafone, and cosmic blue available through other wireless operators.

In addition, Motorola announced the compact E1070 clamshell with the very latest multimedia capabilities and as the small yet powerful E770v candy bar, which is available exclusively at Vodafone.

“The E1070 and the E770v enrich the Motorola UMTS line-up with more ‘must have’ designs and ‘must do’ experiences,” said Ron Garriques, president of Motorola Mobile Devices. “We’re thrilled to be working with the world’s leading UMTS operators to deliver the promise and power of 3G to everyone. And we’re especially excited to deliver the RAZR V3x, which puts the ‘wickedly cool’ in UMTS.”

Motorola RAZR V3x

Weighing less than 130g, the Motorola RAZR V3x is an ultra-slim clamshell model that delivers an extensive range of impressive

multimedia tools, including a 2-megapixel camera, real-time two-way video calling, still and moving image capture, and all in hugely popular RAZR design language.

Bluetooth wireless technology, which supports wireless stereo sound through Motorola's Bluetooth Stereo Headset, and an externally accessible Transflash/Micro SD memory card enhance users' mobile entertainment experience.

Motorola E1070

The sleek and stylish Motorola E1070 combines amazing audio-visual quality with extensive multimedia capabilities to pack a powerful punch. Inside its compact clamshell form, the E1070 provides a 1.3-megapixel camera with digital zoom, enhanced Bluetooth support, externally accessible Transflash/Micro SD memory card and high-quality QVGA display and video.

The Motorola E1070 will be available through several operators, including TIM, Telefonica Moviles, Orange and O2.

Motorola E770v

The Vodafone exclusive E770v is a small and powerful 3G device which is both effortless and fun. Featuring video calling and a powerful multimedia engine, the Motorola E770v provides affordable access to the latest Vodafone live! Service, including up-to-the-minute news full-track music downloads, an increasing range of mobile TV services and content, as well as sports and other entertainment.

All three handsets will be available in Q4 2005.
