

Griffin 3-in-1 USB Dock For iPod and iPhone Users

October 13 2008, by John Messina

The Griffin Simplifi is a charger and sync dock that adds some additional features some computer users may not use. The Simplifi dock integrates a media card reader and a USB hub. Supported memory card formats include: Memory Stick, Memory Stick Pro, SD, SDHC, xD, and CF.

Simplifi dock includes dual USB ports for connecting keyboards, printers, cameras, flash drives, scanners, external hard drives, anything

USB 2.0-compatible. Simplifi charges USB-rechargeable iPod models as they sync with your computer through the included USB mini cable.

Simplifi includes a set of Universal Dock adapters to fit all compatible iPods, but initial shipping units do not have a 3G universal dock adapter included; they are available for \$1.99. At retail stores, Simplifi units packaged with the iPhone 3G badge will have the 3G adapter included.

Simplifi Features

- * Charge/sync hub for iPhone and iPod
- * Reads and writes the most popular digital media cards, including Memory Stick, Memory Stick Pro, SD, SDHC, xD and CF (CompactFlash).
- * 2-port powered USB hub, using included AC adapter
- * A simple way to un-clutter your desktop

The Simplifi multi-function USB iPod dock will retail for \$69.99.
