

ASUS Introduces the Designo MS Series LCD Monitors

September 10 2009

Asus today unveiled the brand new ultra-slim Designo MS Series LCD monitors MS246/ 236/ 227/ 226/ 202 to astound users with a perfect combination of exceptional style and picture quality.

The design concept behind the Designo MS Series is inspired by the binary state, incorporating a series of contrasting elements like the numbers 1 and 0, straight lines and circles, and black and white into an ultra-slim monitor with a 16.5mm profile. The unique spherical ring stand features Ergo-Fit Technology that lets users adjust the monitor's tilt angle with just one finger.

The Designo MS Series' ergonomic design puts the screen at eye level

for a comfortable and productive dual screen computing experience when deployed as a notebook's supplementary monitor. It can be paired with a notebook via a DVI/[VGA](#) cable connection.

The Designo MS Series LCD Monitor features class-leading specifications such as Full HD [1080p](#), 50,000:1 high contrast ratio, 2ms quick [response time](#), ASUS Splendid Video Technology, and an HDMI port to deliver high quality entertainment from Blu-ray movies and console games, along with an extra 40% in power savings.
