

## Nokia weighs in with 3 new CDMA devices - Nokia 6316s, Nokia 3806 and Nokia 1506

November 11 2009

---

Nokia is today strengthening its CDMA portfolio with the announcement of three new CDMA mobile devices: Nokia 6316s, Nokia 3806 and Nokia 1506. Together this new line-up highlights Nokia's continued commitment to CDMA as a major standard in key markets around the world.

The [Nokia](#) 1506 is expected to become available in China at the end of 2009, while the Nokia 6316s and the Nokia 3806 are expected to become available during the first quarter of 2010.

"Nokia is boosting its leadership in the CDMA market by updating an already strong line-up with products that appeal to a wide range of customer needs," said David Tang, Vice President of Nokia China.

## **Nokia 6316s: A 3G device to stay both connected and entertained**

A multimedia device with web browsing, music, imaging and GPS, the Nokia 6316s brings elegant design and powerful functionality together in a compact sliding device. The stainless-steel Nokia 6316s achieves both style and ease of use with a 2.2" QVGA display, a 2-megapixel camera and Bluetooth 2.1.

The Nokia 6316s offers a full range of features in support of [China](#) Telecom services and preloaded applications such as QQ, Email, web browser, as well as try-and-buy applications mobile navigation and mobile stock. With fast 3G connectivity, the Nokia 6316s makes it easier than ever for people to stay in touch and share the things that matter the most to them.

There are three colour schemes available: Black, gold and red.

## **Nokia 3806: A compact companion**

Inheriting the successful Nokia design 'DNA', the Nokia 3806 combines

elegant design, all-in-one functionality, affordability and powerful information sharing features.

With a 2.2" QVGA display, a 2-megapixel camera with video recorder, Bluetooth 2.1 and a card slot which can support an external memory card up to 4GB, the Nokia 3806 is an exciting mobile phone that allows users to easily capture and share every important moment.

The classic monoblock design of the Nokia 3806 is lined with silver trim and is available in three colour schemes: piano black, pure white and rose gold.

Offering more than sleek and stylish design, the Nokia 3806 offers Health Assistant, a companion that helps manage the stresses of daily life, allowing you to stay healthy, which ultimately, allows you to stay happy.

### **Nokia 1506: A simpler way to stay connected**

Designed to simplify the lives of its users, the Nokia 1506 is Nokia's

most affordable CDMA device to date. The easy-to-use Nokia 1506 stands out from other entry-level mobiles with a slender monoblock design with high-gloss colors, a Navi key in metallic finish, a voice recorder, an integrated handsfree speaker and long battery performance.

There are two colour schemes available: Black and plum.
