

New Nokia 6700 slide and Nokia 7230 unveiled

November 25 2009

Nokia 6700 slide

Nokia today unveiled two new 3G slider phones, the Nokia 6700 slide and Nokia 7230, made for the design-conscious consumer and optimized for socializing and sharing with those closest to you.

Available in various fresh colors, with great imaging features and quick access to popular [social networking](#) communities, the Nokia 6700 slide and Nokia 7230 make a real style statement.

Both devices are expected to become available in the first quarter of

2010, and the retail prices before taxes and subsidies are anticipated to be EUR 160 for the Nokia 6700 slide, and EUR 100 for the Nokia 7230.

Nokia 6700 slide

With a choice of six fresh and vivid colors - pink, red, petrol blue, aluminum, lime and purple - this slimline slider is sure to turn heads. Its compact size, modern design and aluminum finish feels great in the hand, and fits perfectly even in the smallest pocket or bag.

The smart capabilities of the Nokia 6700 slide are beautifully easy to use: The 5 megapixel camera with Carl Zeiss optics is perfect for capturing and sharing moments as they happen. Favorite images can be edited on the go and uploaded to the web directly from the camera menu. The device's high speed [3G](#) connectivity ensures your favorite communities are always as close as your Nokia 6700 slide.

Nokia 7230

Being connected has never looked so good. The Nokia 7230's compact slide design, colorful looks and solid set of features are a package that offers great value for money.

Sharing special moments and joy with friends and family is effortless, thanks to the 3.2 megapixel camera, large 2.4" display and fast 3G connectivity. With the Nokia 7230 in your pocket, you also have quick access to email, instant messaging and social networks on the go, and the subtle illumination indicates if you have missed calls or messages from your friends.
