

Google, IPI to launch digital media grants for Africa

February 24 2011

Internet search giant Google has awarded \$2.7 million (1.96 million euros) to media watchdog IPI as part of a new project to support digital news in Europe, the Middle East and Africa, IPI said Thursday.

Internet search giant Google has awarded \$2.7 million (1.96 million euros) to media watchdog IPI as part of a new project to support digital news in Europe, the Middle East and Africa, IPI said Thursday.

The money will sponsor the IPI News Innovation Contest, which will give out grants to non-profit and for-profit organisations "working on digital, including mobile, open-source technology created by journalists and/or for journalists and distributed in the public interest," the International Press Institute announced on its website.

"The role of digital innovation in news has been amply demonstrated by recent events in Tunisia, Egypt and more recently Bahrain," the Vienna-

based IPI noted.

Grants will be awarded for three kinds of ventures, namely training, development of [economic models](#) for news outlets and platforms to ensure reliable news sources.

"A free press empowers people, and a thriving, independent, innovative news industry is vital to any country's development," providing "a mirror to the societies it is meant to serve," IPI's acting director Alison McKenzie noted.

"In the era of the Internet it's important that innovation in journalism continues to flourish and we're keen to help encourage that," Google's external relations director for Europe, Africa and the [Middle East](#) added.

Applications for the grants can be submitted until June 1, online at: www.ipinewscontest.org
