

# How the Nook Tablet compares to the Kindle Fire

November 21 2011

---

A comparison of the major features of Barnes & Noble Inc.'s Nook Tablet computer and Amazon.com Inc.'s Kindle Fire:

Price: The [Nook Tablet](#) costs \$249; the [Kindle Fire](#), costs \$199.

Connectivity: Both tablets connect to the Internet only through Wi-Fi.

---

## [Review: Nook Tablet is Kindle Fire's worthy foe](#)

Screen size: Both tablets have displays that measure 7 inches diagonally. That's about three times the size of an iPhone screen and half the size of an iPad screen.

**Software:** Both run modified versions of Google Inc.'s Android software. Neither one has direct access to Google's Android Market for third-party applications; Amazon and Barnes & Noble run their own stores.

**Apps:** Barnes & Noble says there are about 1,000 third-party applications available for the Tablet. Amazon has nearly ten times as many.

**Storage:** The Nook Tablet has 16 gigabytes of storage plus a memory-card slot. Of the built-in memory, all but 1 gigabyte is reserved for content bought from Barnes & Noble. The Kindle Fire includes 8 gigabytes of internal storage and no memory-card slot.

**Battery life:** Barnes & Noble claims up to 9 hours of video on the Nook Tablet, Amazon says 7.5 hours on the Kindle Fire.

**Thickness:** They're nearly identical: the Nook tablet is 0.48 inches thick, while the Kindle Fire is 0.45 inches.

**Weight:** Again, nearly identical. The Nook Tablet weighs 14.1 ounces, the Kindle Fire half an ounce more.

**Movies:** Both come with apps from Netflix and Hulu, which provide streaming movies and TV shows to subscribers. The Kindle Fire also provides access to downloadable and streaming movies from Amazon.
