

# Motorola sharpens Droid Razr with Maxx

February 2 2012, By Matthew Fortner

---

The Razr is among the elite of Android devices. Motorola sharpens its Razr brand further with the 4G LTE Droid Razr Maxx which was released at Verizon for \$300 with a two year agreement.

The device is said to be the longest-lasting smartphone on the market offering 21 hours of talk time per charge while maintaining a slim 8.99 mm profile.

- Powered by [Android](#) 2.3.5 Gingerbread, upgradable to Android 4.0 Ice Cream Sandwich
- 3300 mAh battery
- 8-megapixel rear-facing camera with 1080p HD video capture and [image stabilization](#) technology for crisp and clear videos
- Front-facing [HD camera](#) for video chat over [4G](#) LTE, 3G or Wi-Fi
- 4G LTE Mobile Hotspot capable - customers can share 4G LTE speed with up to eight Wi-Fi-enabled devices
- Remote wipe, pin lock and government-grade encryption for email, calendar and contacts, as well as voice and video chat conferencing
- 32 GB memory - 16 GB on-board memory and 16 GB microSD card pre-installed (actual formatted capacity is less)
