

Google investing \$300M to build Iowa data center

April 24 2012, By MARGERY A. BECK , Associated Press

(AP) -- Google Inc. says it will invest \$300 million to build another data center in western Iowa.

The Mountain View, Calif.-based company announced at a news conference Tuesday that the center will bring about 50 new jobs to Council Bluffs, a city across the Missouri River from Omaha, Neb.

Officials say construction will begin immediately. Google's existing \$600 million data center in Council Bluffs opened in 2009.

The Iowa Economic Development Authority board approved more than \$9 million in tax credits last week to help [Google](#) select the Iowa site.
