

# Hewlett-Packard recalls 5 million AC power cords

August 26 2014

---

Hewlett-Packard Company is recalling about 5.6 million notebook computer AC power cords in this country and another 446,700 in Canada because of possible overheating, which can pose a fire and burn hazard.

HP has received 29 reports of power cords overheating and melting or charring, resulting in two claims of minor burns and 13 claims of minor property damage.

The Hewlett-Packard LS-15 AC power cords were distributed with HP and Compaq notebook and mini [notebook computers](#), and with AC adapter-powered accessories including docking stations.

The power cords are black and have an "LS-15" molded on the AC adapter end of the cord. They were manufactured in China.
