

Video: Researchers instruct scientists in giant role tiny fungi play

August 19 2014, by Andrea Brunais

Trichoderma, a fungus, helps humans in many ways, including giving denim that stone-washed look. Scientists have found it is also especially good at eating "bad" fungi.

At a Virginia Tech-led workshop in the rural town of Bharatpur, Nepal, researchers, scientists, and agriculture experts gathered to learn more about the inexpensive, environmentally friendly bio-agent.
