

NASA launches 3 suborbital rockets from Wallops Island

February 24 2015

(AP)—Three suborbital rockets have been launched for the Department of Defense from NASA's facility on Wallops Island in Virginia.

NASA says the Terrier-Oriole suborbital rockets were launched around 2:30 a.m. (0730 GMT) Tuesday. The [space agency](#) didn't provide details about the rockets.

The next scheduled launch from the Wallops Flight Facility is set for March 27. A NASA Terrier-Improved suborbital sounding rocket will carry experiments developed by university students.
