

Video: What's in a football helmet?

September 9 2015

Credit: The American Chemical Society

Football is back, and with all the hard hits and tough tackles come renewed concerns about safety. Every NFL player is required to wear a helmet, but the helmets of today are a far cry from the leather creations from decades ago.

To kick off this football season, Reactions looks at everything that goes into a [football helmet](#) and how chemistry helps keep players safe.

Check it out here:
