

Solar power project at Northeast US military base underway

December 20 2016

A solar power project officials say is the largest in the military in the Northeastern U.S. is moving forward.

Groundbreaking was set for Tuesday at a capped landfill on Joint Base McGuire-Dix-Lakehurst. The base is about 18 miles southeast of Trenton, New Jersey.

Plans call for the installation of more than 50,000 [solar panels](#) that will produce 16.5 megawatts, or enough [renewable energy](#) to power more than 2,500 homes.
