

# Magnitude 6 earthquake strikes off Samoa, American Samoa

November 20 2017

---

The U.S. Geological Survey says a magnitude 6 earthquake struck waters west of Samoa and American Samoa.

The agency said Monday the [earthquake](#) was centered 220 miles west of Apia, Samoa, and 290 miles west of Pago Pago, American Samoa.

The quake struck at a depth of 6 miles (10 kilometers) shortly before 8 a.m. in American Samoa.

The Pacific Tsunami Warning Center in Honolulu said there was no chance of tsunami from the temblor.
