

Supreme Court upholds challenged patent review practice

April 24 2018

The Supreme Court has upheld a challenged practice that is used to invalidate patents without the involvement of federal courts.

The justices on Tuesday rejected a bid to strike down a process established by Congress in 2011 to speed up patent reviews.

The justices voted 7-2 in favor of the U.S. Patent and Trademark Office's patent review process. It has been used to invalidate hundreds of

patents since it was established in 2012.

Chief Justice John Roberts and Justice Neil Gorsuch dissented.
