An Orbital ATK rocket rolls out to launch Pad-0A at NASA's Wallops Flight Facility on May 17, 2018, in advance of a May 21 launch from Wallops Island, VA. The Antares will launch a Cygnus spacecraft on a cargo resupply mission to the International Space Station.

The mission is Orbital ATK's ninth contracted cargo delivery flight to the [space station](#) for NASA. Among the 7,400 pounds of cargo onboard Cygnus are science experiments, crew supplies and vehicle hardware.

Launch is scheduled for 5:04 a.m. EDT on Sunday, May 20.
