

WhatsApp doesn't lead to language deterioration

January 10 2019

Credit: CC0 Public Domain

Active users of social media like WhatsApp don't write more poorly at school, although there's a small relation between passively using WhatsApp and poorer writing. This was shown in a study done among

young people by linguist Lieke Verheijen, who will receive her Ph.D. on this subject from Radboud University on 25 January.

'Heeey J sup!?! RU OK? ily 4ever xo
