

# Potentially fatal combinations of humidity and heat are emerging across the globe

May 8 2020

- |                             |                          |                          |                           |
|-----------------------------|--------------------------|--------------------------|---------------------------|
| 1. Phoenix, AZ, USA         | 2. Little Rock, AR, USA  | 3. New York, NY, USA     | 4. Miami, FL, USA         |
| 5. Iquitos, Peru            | 6. Asuncion, Paraguay    | 7. Fortaleza, Brazil     | 8. Niamey, Niger          |
| 9. Milan, Italy             | 10. Victoria, Seychelles | 11. Jeddah, Saudi Arabia | 12. Dhahran, Saudi Arabia |
| 13. Jacobabad, Pakistan     | 14. Kolkata, India       | 15. Shanghai, China      | 16. Singapore             |
| 17. Port Hedland, Australia | 18. Longreach, Australia |                          |                           |

All-time maximum wet-bulb temperatures at selected cities, represented as differences from 35°C, at weather stations (left bars) and estimated from ERA5 reanalysis (right bars). Values are shown as lengths (according to the scale at right) and additionally as colors, according to the following scheme: blue,
