Inside the New Zealand Ice Core Research Facility, scientists like Dr. Holly Winton from the Te Puna Pātiotio—Antarctic Research Centre at Te Herenga Waka—Victoria University of Wellington analyze ice core samples to understand how and why the climate changed in the past, to better predict our future.

The [video](#) features footage from Antarctica, and Dr. Winton explains her research among the ice cores at the Research Facility run jointly by GNS Science and the University.
