

# Droughts in Europe could be avoided with faster emissions cuts

March 25 2024

Overview of precipitation trends in SSP3-7.0 (left rectangle) and the fixed concentration experiments (right rectangle) in all seasons for different land regions. Blue indicates a positive precipitation trend and red is used for negative precipitation trends. These colors are shown where > 80% of ensemble members agree on the sign of the trend. Gray rectangles are used where
