

Saturday Citations: Teen seals photobomb research site; cell phones are safe; serotonin and emotional resilience

September 7 2024, by Chris Packham

A northern elephant seal (*Mirounga angustirostris*) attempts to catch a sablefish (*Anoplopoma fimbria*), captured by Ocean Networks Canada's high-definition camera at the Barkley Canyon NEPTUNE observatory site, off the west coast of Vancouver Island, Canada. Credit: Ocean Networks Canada

If you're not susceptible to urban myths and misinformation, there's a new study from the World Health Organization that will ease your 2010s-era anxieties about cell phones. There were a lot of other developments this week, including [the return of Boeing's trouble-plagued Starliner capsule](#) to Earth with a surprising number of astronauts (
