

Web service Twitter proposes TV competition series

25 May 2009, By FRAZIER MOORE , AP Television Writer

(AP) -- Twitter, the Web site that asks what everybody's doing, says it wants to be doing a TV series.

The social-networking service said Monday it has teamed with Reveille productions and Brillstein Entertainment Partners to develop an unscripted series based on the site, which invites 140-character postings from members around the world.

The show would harness Twitter to put players on the trail of celebrities in an interactive, competitive format.

The producers call their proposed series the first to bring the immediacy of Twitter to the TV screen.

"Twitter is transforming the way people communicate, especially celebrities and their fans," said Reveille managing director Howard T. Owens, who expects the new project to "unlock Twitter's potential on TV."

No further details were made available on the show's format or when it might hit the air.

Reveille's scripted entertainment includes "The

Office" (NBC), "Ugly Betty" (ABC) and "The Tudors" (Showtime), plus reality programming that includes "The Biggest Loser" and "American Gladiators" (both NBC).

Brillstein Entertainment's credits include "Real Time with Bill Maher" (HBO), "The Sopranos" (HBO), "According to Jim" (ABC) and "NewsRadio" (NBC).

The San Francisco-based Twitter, which was founded in 2007, is one of the Internet's fastest-growing sites. A recent Nielsen report found that unique visitors to [Twitter](http://www.twitter.com/) skyrocketed from 475,000 during February 2008 to 7 million a year later.
