A picture taken in October 2004 shows Fatu (C) at the Dvur Kralove zoo, East Bohemia. A Czech zoo is to transfer four endangered Northern White rhinos to a Kenyan reserve in a last-ditch attempt to ensure the survival of the species.

A Czech zoo is to transfer four endangered Northern White rhinos to a Kenyan reserve in a last-ditch attempt to ensure the survival of the species.

"We must offer them this last chance, in their natural environment in Africa," said director Dana Holeckova of the Dvur-Kralove [zoo](#) in central Czech Republic.

According to experts there are only eight remaining Northern White [rhinos](#), a sub-species of the White Rhino -- worldwide. All live in captivity -- six at Dvur-Kralove and two more at San Diego Zoo in the United States.

The last birth was at Dvur-Kralove in 2000.

It is hoped that returning the [animals](#) to the wild will affect the hormonal levels of the female rhinos allowing them to breed, said Holeckova.

The four rhinos -- two males and two females -- would be transferred by air to Kenya's Ol Pejeta reserve on December 19.

The Northern White rhino once ranged across
