

Video: Kip Thorne talks about the years leading up to LIGO's first detection of gravitational waves

15 February 2017

In a new video, Kip Thorne, Caltech's Richard P. Feynman Professor of Theoretical Physics, Emeritus, talks about the years leading up to LIGO's first detection of gravitational waves.

He talks about how a small research team, its big vision, and decades of unwavering support opened a new window to the universe.
