Chris Sununu is proclaiming a day in honor of McAuliffe who died in the NASA Challenger disaster decades ago. Sununu said Sunday, Jan. 28 will be known as "Christa McAuliffe Day" in honor of the woman selected to become the first educator in space. (AP Photo/Jim Cole, File)

New Hampshire has proclaimed a day in tribute to a local teacher who died in the NASA space shuttle Challenger disaster decades ago.

Republican Gov. Chris Sununu (soo-NOO'-noo) said Sunday would be known as Christa McAuliffe Day in honor of the Concord (KAHN'-kard) woman selected to become the first educator in space out of 11,000 applicants.

McAuliffe never made it to orbit because she and six crewmates were killed when the Challenger broke apart shortly after takeoff on Jan. 28, 1986.

McAuliffe would have been NASA's first designated teacher in space. She was going to experiment with fluids and demonstrate Newton's laws of motion for schoolchildren.
